# Diesel Bans - will they come?

- In Germany they are legally possible, lots of pressure, legal cases

Stuttgart, Frankfurt, Munich, Hamburg.....

- Law: schemes must be **effective & proportionate**
- Euro 6 end 2018 / 19....?
- Euro 6 or 6d?
  - Euro 6 quicker ; Euro 6d better
- Retrofit to 6d.....

# Outside Germany.....

- Oslo
  - Current, pre-Euro 6 = €€€€, Smog no pre-Euro 6
- London
  - From 8.4.2019: Euro 6 diesel, Euro 4 petrol
- Stockholm
  - 2020: Euro 6
- Belgium, Antwerp, Gent, Brussels....
  - 2025: Euro 6d
- Copenhagen & Stockholm
  - recommended not to buy Diesels
- Cities stated no diesel
  - Famous 4: Paris, Madrid, Athens, Mexico City
  - Others since joined, eg Rome....

Also Retrofit

# What will also come

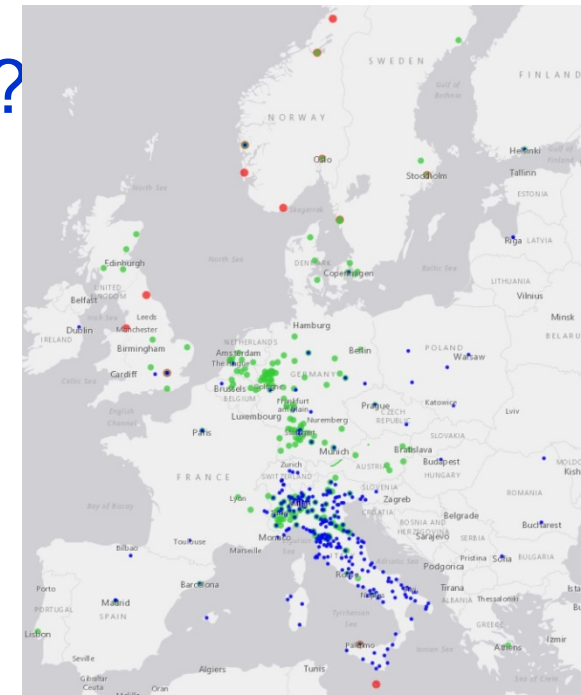

## Zero Emission Zones

- Announced in
  - London, Oxford, Amsterdam, Rotterdam, Copenhagen, Stockholm, Oslo, Bergen, Madrid.....
- Emissions-free and/or vehicle-free
- Drivers, CO<sub>2</sub> (air quality)
  - Paris Climate Agreement, EU transport goals
    - ½ 'conventionally fuelled' cars in urban transport by 2030
    - phase 'conventionally fuelled' cars out of cities by 2050
    - CO<sub>2</sub>-free city logistics in major urban centres by 2030

# urbanaccessregulation.eu

- urbanaccessregulation.eu now ‘self-funded’
  - i.e. Commercial basis
  - No funds = no website / services
- Over 560 Schemes & counting
  - Types of schemes now changing too
- Interested in this type of information?
  - Talk to us, we have this & much more
  - Incentives, likely next schemes, data, Scheme news.....
- CLARS funding through
  - Sponsorship, data, information, additional services, city membership....
  - Please join us!

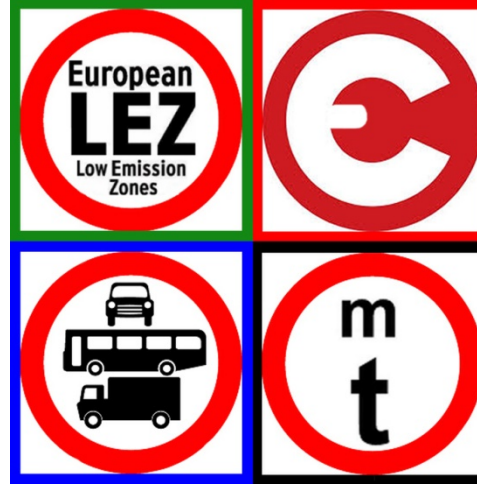

# A Tool Towards BAT

- Let customers & policymakers know *actual* emissions in cities for each vehicle & model
- Let customers & policymakers know which vehicles have BAT - or not
  - Give OEM an advantage for BAT implementation

- Over to Massimo Fedeli & Air Alliance
